

Welcome to “Little Musicians”!

A joyful music program designed especially for young children! In our workshops, children explore the world of sounds, rhythms and movement through play.

Instruments to discover!

Each week, children are introduced to a featured instrument. From bells to drums, each session brings a new discovery that sparks curiosity and creativity.

Sing and move!

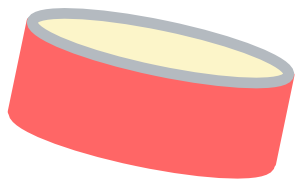

“Little Musicians” is not just about notes: it is also about movement! Our workshops invite children to move, dance, clap their hands and discover the joy of expressing themselves through music and movement.

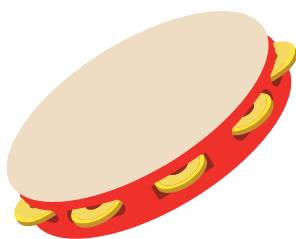

Why music?

- A boost for language: Music is a powerful tool for language development.
- A boost for the brain: Music stimulates memory, creativity, concentration and overall development.

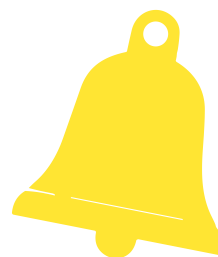

Our instruments

Drum
Tambour

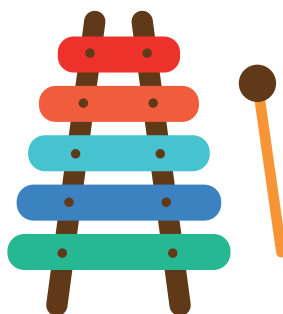

Tambourine
Tambourin

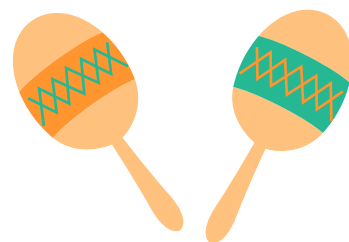

Bell
Cloche
